

HOW TO CREATE A WALLET (optionally, if you don't have Ethereum wallet)

- To create an Ether wallet go to <https://www.myetherwallet.com> (please make sure you typed in correct URL, because there are a lot of fishing sites with similar links).

How to Create a Wallet – <https://myetherwallet.github.io/knowledge-base/getting-started/creating-a-new-wallet-on-myetherwallet.html>

- Keep your private key and password in the safe place. You can access your Ether wallet with a password and an encrypted file that you can store on your laptop (just file, not a password).
- You can buy Ether at:
 - <https://www.yobit.net/>
 - <https://www.kraken.com/>
 - <https://exmo.com/en/>

HOW TO TRANSFER ETH USING <https://www.myetherwallet.com>

- Login to <https://myetherwallet.com> (check for correct website certificate and address to prevent phishing)
- Click “Send Ether and Tokens”, login again.

- Select “ETH” in the dropdown, input **Address** to send ETH to and **Amount** of ETH to send. Check that **Gas Limit** has adjusted. Remember that you need ETH balance to pay Gas price for every transaction.

Send Ether & Tokens

- Click **“Generate Transaction”**, then click **“Send Transaction”**.

HOW TO CHECK VLB BALANCE USING <https://www.myetherwallet.com>

- Login to <https://myetherwallet.com> (check for correct website certificate and address to prevent phishing)
- Click “View Wallet Info” and unlock your wallet.

- In “Token Balances” section click “Load Token Balances” and check that your VLB balance is valid. Or click “Show Tokens” and find VLB in the list.
